

CARDIO RANGE

An Outstanding CARDIO experience

Power up your gym floor with cardio equipment built for performance and smart investment.

From high-impact treadmills to smooth ellipticals, rowers, and precision-engineered bikes, DHZ Fitness delivers a premium endurance lineup that impresses members.

All at a price point that protects your bottom line.

“USAEON Cardio — where innovation meets performance, delivering premium training experiences without the premium price.”

AEGT PRO TREADMILL

LISAEON FITNESS

AEGT 800 PRO TREADMILL

The GT800PRO Treadmill combines ergonomic design with high performance. Its raised display improves posture, while quick-access speed and incline controls enhance usability.

Integrated cupholders and upright handlebars add comfort.

A powerful 6.0 HP motor and German-made Siegling 2.4T low-maintenance belt deliver smooth, energy-efficient performance. The cushioned deck and 25mm MDF board reduce joint impact and ensure quiet, stable operation.

The upgraded motor improves cooling, durability, and torque, reaching speeds of 0.4–24 km/h.

The 21.5” TFT console offers a vivid display, connects to Zwift and Kinomap, and includes built-in entertainment, immersive runs, smartphone mirroring, and workout sharing.

Users can enjoy built-in apps like YouTube and Netflix, immersive landscape runs, smartphone mirroring, and easy workout sharing.

A photograph of a gym interior with three people using USAeon 705D elliptical machines. The machines are arranged in a row, and the people are seen from the side, moving forward. The gym has a brick wall and large windows in the background. The floor is made of dark tiles. The machines are black and silver, with the USAeon logo visible on the side of each machine. The people are wearing athletic wear: a man in a black tank top and shorts, a woman in a black sports bra and shorts, and another woman in a white sports bra and black leggings. They are all wearing sneakers. The machines have large digital screens at the front, and the people are holding the handles. The overall atmosphere is bright and active.

705D ELLIPTICAL

USAEON FITNESS

705D ELLIPTICAL

Our ellipticals feature a self-generating system, requiring no external power for a clean, cable-free setup, ideal for flexible gym layouts.

The space-saving front-drive design maximises floor efficiency, while ergonomic handlebars ensure superior comfort and grip.

The 15.6" USAEON TFT console delivers a high-resolution visual experience with built-in ventilation, smartphone/tablet holder, and cupholders.

Connect to Zwift or Kinomap, enjoy apps like YouTube and Netflix, experience immersive Vision Runs, mirror your device, and share workout results directly from the machine, all at exceptional value.

“Elite performance without the elite price — our elliptical delivers high-end excellence that stands shoulder to shoulder with the industry’s best.”

AU90 AIR BIKE

AU90 AIR BIKE

Our Air bikes deliver a full-body workout, engaging legs, arms, shoulders, and core for maximum efficiency. A laterally adjustable saddle ensures comfort during intense sessions.

Magnetic resistance allows preset intensity levels for structured training, while the fan-based system automatically increases resistance the harder you push.

The easy-to-use LCD screen includes all standard workout functions.

“Push harder, go further — our air bikes turn every effort into unstoppable full-body power.”

R90 ROWER

R90 ROWER

Full-Body Workout – engage nearly every major muscle group; legs, core, back, arms, and shoulders.

The rowing stroke is approximately 65–75% leg work and 25–35% upper body work, making it highly efficient for strength and endurance. You can preset intensity levels using the magnetic resistance system, ideal for structured and consistent training.

Additionally, the dynamic fan-based resistance automatically adjusts to your effort: the harder you row, the greater the resistance.

The LCD screen is easy to handle and offers all standard functions.

“Every stroke builds strength, endurance, and resilience — our rower turns effort into total-body excellence.”
